

AQUAZANIA PURE PREMIUM WATER

Who Are We?

- Aquazania is South Africa's largest bottled premium water distributor into homes and businesses.
- We service over 30,000 customers, delivering water directly to their doors.

What is Purified Water?

- Purified water is water which goes through a series of special processes to remove all chemicals, pollutants and organisms
- Minerals are kept in the water to retain its flavour
- The result is the purest, cleanest, tastiest water around!

The Benefits of Using Aquazania

Cost

- The biggest cost of bottled water is the cost associated with the bottling of that water, as well as the mark-up the retailers apply when buying from the bottler.
- Over 70 % of the cost of water is attributed to those costs.
- We save you these costs by:
 - ✓ ***Selling direct to the public (as the bottling company)***
 - ✓ ***Supplying larger size bottles, (significantly reducing costs to you of the actual water)***
- The result is the best value for money offer in SA for bottled H2O.

Health Benefits

- Aquazania it is the purest water available! It's been multi filtered and purified to bring you the healthiest water available.
- Our premium water goes through a 9 step process and Reverse Osmosis Filtration is the heart of the Aquazania process.
- The water is sterilized, but minerals retained to ensure great taste
- Our water is always very tasty and tastes exactly the same every time

Equipment & Service

- We supply you with top of the line dispenser which dispenses refrigerated + heated bottled water with embedded Nano silver anti bacterial impregnation to control any bacterial growth in the cooler.
- We deliver to your door next day when you need a refill; we call you regularly to ask you if you need water.
